

Being responsible for their patients' safety, dentists are required to be familiar with emergency procedures specific to their profession. However, due to insufficiency of the training they receive, there's a need for a tool to help dentists revise what they are supposed to do in such difficult situations. That's where DEmergency comes in handy: all necessary information is right in your pocket available to revise and strengthen the knowledge by taking the quiz.

Advantages:

- Lightweight, reliable, and fast
- Available for Android and iOS
- Works Offline
- Concise information
- Quiz helping remember most important points
- Extensible to other areas of first-aid
